

## Instructions

### Password administration

*- using only Ice Key or Digital Certificates*

#### Inna and the teaching platform

Inna is the school information system where students can access information regarding their studies, such as school reports, grades, attendance and courses. Inna is also a teaching platform.

Students' *kennitala* is their username for Inna and the password is always accessible through Inna.

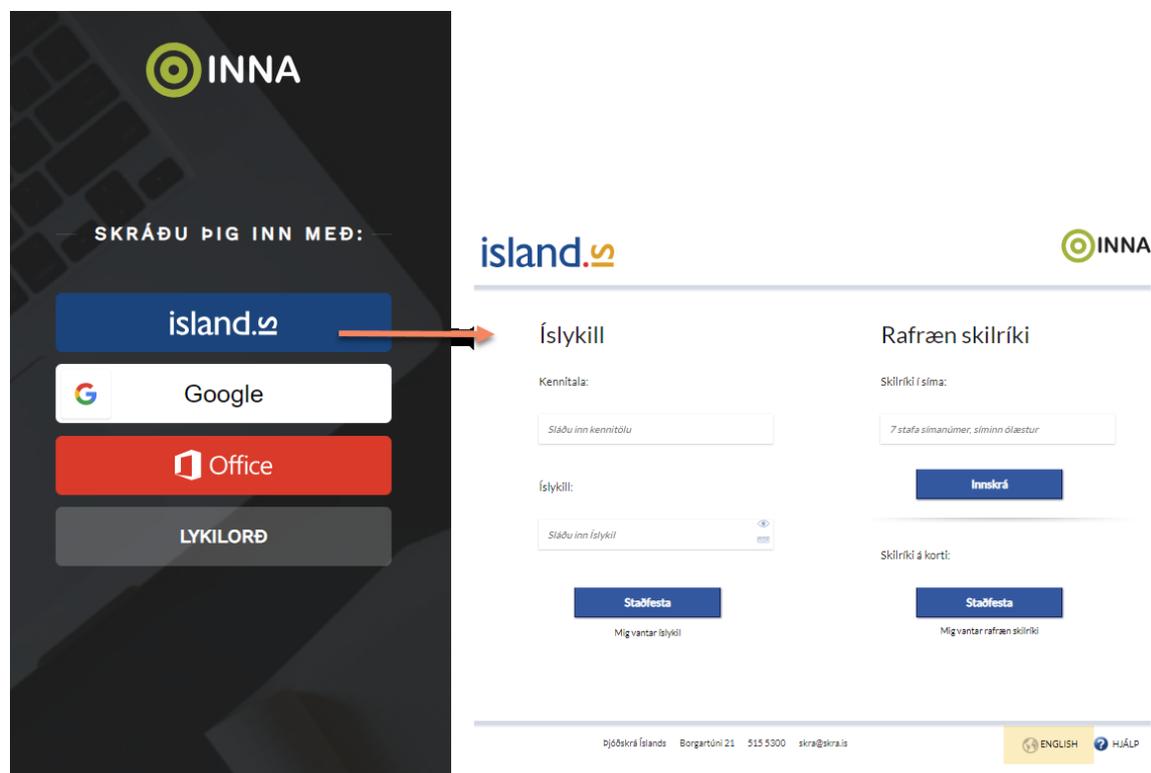

Next of kin for underage students also get access to Inna, and students that have turned 18 can grant next of kin continued access to Inna, [see instructions](#)

It is important that students make sure that their emails and phone numbers in Inna are correct.

#### Instructions - logging on to Inna

To sign in to Inna, use *Ice Key - Digital Certificates*.

Students and parents are only to use ID number for Inna *Ice Key or Digital Certificates*

Information about access and passwords for school computers.
